

Your Colorized Pattern

MADE FOR YOU
WITH THE PATTERN CUSTOMIZER TOOL ON [STITCHPALETTES.COM](https://stitchpalettes.com)

This PDF shows your pattern with the palette and fabric color you chose.

This result reflects your creative decisions, showing how the colors interact with each other and with the background fabric. Use it to plan your materials, guide your stitching, or simply enjoy seeing your idea fully realized in color. This PDF is a visual companion, not a replacement for the original pattern file, which provides the clear line work needed for pattern transfer.
